Visit Greece

A journey through time and a mythical destination; Greece welcomes you to discover its amazing melting pot of glorious sunsets, stunning beaches, modern attractions and ancient sites. A year around destination with 300 days of sunshine; a13.000 kilometers coastline and over 6,000 islands floating just off its coastline (perfect for island hopping), all offering their own exclusive view of the Greek lifestyle, while featuring a wide range of properties inscribed on the UNESCO's World Heritage List such as the Acropolis, the archaeological sites of Delphi, Olympia, the Suspended in the air Meteora as well as the breathtaking Caldera of Santorini. While visiting, you will be swept by the amazing 5,000 years of history, reflecting on concepts that were actually born here; such as drama, democracy, philosophy, culture, science and the magnificence of the Olympic Games.
Greece is also home to numerous museums. Located at the foot of the Acropolis in Athens is the Acropolis Museum, an architectural marvel which houses some of Greece's finest treasures, while the National Archaeological Museum is packed with ancient marble statues, jewellery and ceramics.

Medical travel

Our company's medical tourism department focuses on providing patients with the best and remedial treatment for the concerned ailments and disorders. Our medical and health care services are concentrated in Athens as well as other regions. Our medical panel is headed by the eminent personalities from the various fields of medical profession like gynecologists, pediatricians, general physicians, nurses, paramedic practitioners and physiotherapists.

Why Greece?

Greece has been home to medicine, as ancient Greek medicine was the basis of modern scientific medicine. Linking the past to the present, Hippocrates made such an impression on medical history that his name is still very much associated with medicine today as all newly qualified doctors take what is called the 'Hippocratic Oath'. Greece today features hospitals with modern equipment and excellent medical staff who deliver top-level health care services, focusing on each patient's needs. Furthermore, another reason behind coming to Greece for the medical treatment is that patients are able to obtain cure at cost effective rates.

we offer

We provide our patients with care and comfort; a friendly approach results in good and prolonged relationships between the patient and doctor. Further, this helps us to ensure that a suave and comfortable environment is maintained within the facility premises.

Educational travel

Travel & Learn gives you the opportunity to experience the world as your classroom. Rather than picking things up from books and the Internet, navigating a new landscape may open your eyes to culture, history or any scientific field you might desire. As our motto states our belief is that not all classrooms have walls!

Each city in Greece has its own vibrant color, culture and sights. Now, combine the above and you will get Travel & Learn! Our main objective is for you to gain as much knowledge on the field that you have selected first hand and not from books stored in your local library while discovering the beauty Greece has to offer.

Our friendly team love travel, we live and breathe it every day and are inspired by the great range of holidays we offer. Our team comprises of young executives of the travel industry that strive to offer a once in a lifetime experience to fall in love with what you have possibly already chosen as your career path.

Greek gastronomy

The Greek cuisine offers an incredibly rich and diverse array of foods and beverages that are the culmination of literally thousands of years of living, cooking, and eating. While each Greek meal is fresh and inviting, it is also a trip back through Greece's history. The main ingredient you will probably find in just about every Greek dish is olive oil, the energy ingredient that fueled a splendid civilization in ancient times until today. The main components of the Greek cuisine are olive oil, bread, grains, dairy products, vegetables, legumes, honey and fish, as well as meats like goat, lamb, and pork. Many herbs and spices are used in Greek food, in moderation so as not to take away from the taste of the vegetables and meats. The most widely used herbs and spices are oregano, mint, garlic, dill, parsley, bay leaf, basil, thyme, cinnamon, clove, rosemary, nutmeg, and saffron from Kozani.

Attica

Athens is the historical capital of Europe, with a long history, dating from the first settlement in the Neolithic age. In 1834, it became the capital of the modern Greek state and in two centuries since it has become an attractive modern metropolis with unrivalled charm.Athens dominates the Attica region and is one of the world's oldest cities, with its recorded history spanning.A large part of the town's historic centre has been converted into a 3-kilometre pedestrian zone.

The historic centre is an open-air museum, yet the city's cultural and social life takes place amid these ancient landmarks, merging past and present. The magnificent Acropolis rises above the sprawling metropolis and has stood witness to the city's many transformations.The heart of ancient Athens was the Agora, the lively, crowded focal point of administrative, commercial, political and social activity.

The Plaka is the oldest section of Athens. Most of the streets have been closed to automobile traffic, though you should still keep a watchful eye for a speeding motorcycle or delivery truck. At one time it was the nightclub district, but most of these closed down when the government outlawed amplified music in the neighborhood in the seventies in an effort to get rid of undesirables. The strategy was very successful and it is now an area of restaurants, Jewelry stores tourist shops, and cafes. The grand Panathenaic Stadium lies between two pine-covered hills between the neighbourhoods of Mets and Pangrati. It was originally built in the 4th century BC as a venue for the Panathenaic athletic contests.

Driving along the coastal road of "Posidonos", one of the nicest coastlines of all Greece, you will pass by the beautiful harbors of Glyfada, Vouliagmeni and Varkiza. The ultimate place for sailboats, yachting, sunshine and blue seas! A splendid view of the Saronic Gulf.

We arrive at Cape Sounio, the southernmost point of the European mainland. Panoramic view of all the Aegean sea, from the top of the outstanding rock a monument to the history of the temple of Poseidon. Sounio was believed to be the home of the god of the sea, Poseidon. Legends and myths alongside reality! The temple of the goddess Athena was also just beside this.

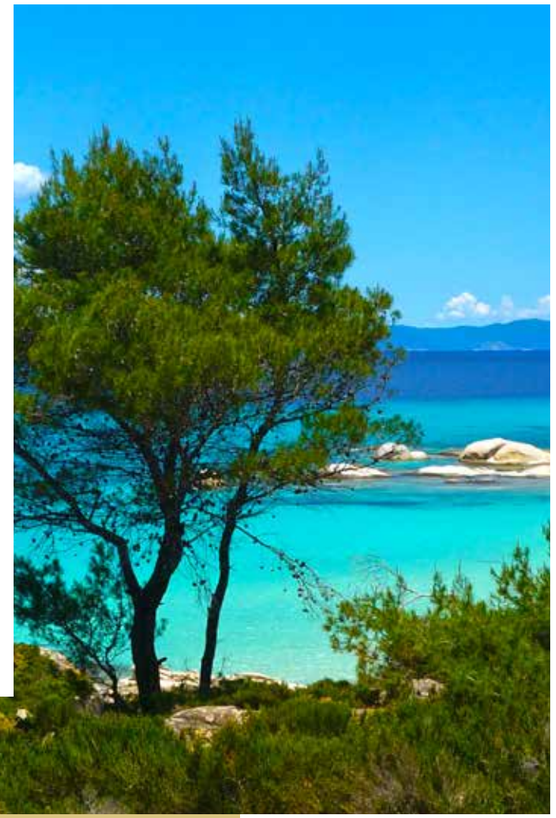
Central Greece

One of the most mountainous districts of the country, Central Greece lies in the heart of the mainland. Its geographical position accounts for the great variety in the region's climate, which is dry and mountainous inland and mild on the coast. The contours of its landscape, too, are very diverse: thickly wooded green slopes, hills with pines, oaks, poplars and fast-moving streams separated by flat lands, plateaus and lakes, alternating harmoniously with the countless bays, intricate network of coves – some peaceful, some sheer and rugged – and picturesque islands that decorate the southwest coast. Inhabited since the distant past, Central Greece is a place with a rich and distinctive history.

Macedonia

Macedonia, the kingdom of Alexander the Great, is one of the most beautiful areas of Greece, rich in natural beauty, history, and archaeology and great food. Thessaloniki, its capital, is the most cosmopolitan city in Greece. Though it is popular with tourists from the north, because they can drive here, there are still large areas that are unexploited including many beaches you might have entirely to yourself.

The region of Macedonia in Greece covers the largest part of northern Greece. It varies geographically, as it has long coastline, impressive mountainsides and large plains, too. A perfect place for summer and winter holidays. The most popular summer destinations in Macedonia are Halkidiki, Pieria and Kavala, famous for the fabulous beaches and the relaxing atmosphere. Winter destinations include Kastoria, Florina, Loutra Pozar and Mount Olympus, places that distinguish for their natural beauty. Do not miss a visit to the interesting sightseeings of the region, including Dion, Vergina, Pella and Philippi.



Peloponnese

Peloponnese, in Greece, is a geographical area of mainland Greece, located on the southern side of the country. This region could be described as an island connected to the mainland in two spots: the Corinth Canal and the Bridge of Rio Antirio.

Peloponnese with its gulfs in Korinthos, Patras, Saronic, Messinia, Argolida and Laconia looks like a plane tree leaf and that is why it was formerly called "Morias". It has dry climate on the east, cold, snow and rich vegetation in its central and mountainous parts and rain and heat on the west.

Peloponnese is the most popular region of the Greek mainland in terms of tourism. The close proximity to Athens, the beautiful resorts and the interesting sightseeing attract many visitors to Peloponnese Greece all year round. Historically, it has been the main field of action for Greece since the prehistoric times. In fact, it hosts the most important archaeological sites of Greece, including Olympia, Epidaurus and Mycenae. Surrounded by sea from all sides, the region provides amazing beaches. The most famous areas include Nafplion, Gythio, Monemvasia and Pylos are lovely places with Medieval architecture and nice beach resorts.

Thessaly is a traditional geographic and modern administrative region of Greece, comprising most of the ancient region of the same name. Thessaly lies in central Greece and borders the regions of Macedonia on the north, Epirus on the west, Central Greece on the south and the Aegean Sea on the east. The Thessaly region also includes the Sporades islands.

The region of Thessaly is located on the northern side of Greece, between Macedonia and Sterea. Watered by the Aegean Sea from the eastern side, only few parts of Thessaly are open to tourism. Meteora is the most impressive site of Thessaly Greece, with huge rocks standing in the middle of a valley and monasteries constructed on top of these rocks. Pelion is also a great place for holiday: gorgeous natural beauty, with amazing beaches and lovely villages in the mountains. According to the Greek mythology, Pelion was the homeland of the Centaurs, the mythical creatures half-men half-horses. Nice beaches are also found in the coasts of Larissa, the largest town of Thessaly.

Crete was the center of the Minoan civilization, Crete is the largest island in Greece, and the fifth largest one in the Mediterranean Sea. explore glorious beaches, impressive mountainscapes, fertile valleys and steep gorges, and become part of the island's rich gastronomic culture. Crete is, after all, a small universe teeming with beauties and treasures that you will probably need a lifetime to uncover!

Crete – the southernmost island in Europe has "everything"! Its bountiful variety of features includes mountain villages, long sandy beaches, rocky bays, beach-bar-boogie and nightlife. There are magnificent mountain ranges, water-sports, tranquil locations and clean swimmable seas. No other place in Greece can delight the senses of smell and taste like Crete. Fine cheeses, cold cuts, olive oils, herbs, honey, wine, raki.

Cyclades islands

The Cyclades, in Greece, is the most popular island complex in the Greek islands. The name of the group comes from the Greek word cyclos, which means circle, as all the islands form a circle around Delos, the ancient trade, political and religious center of the world. According to the Greek mythology, Poseidon, God of the sea, furious at the Cyclades nymphs turned them into islands.The villages of the Cyclades mostly distinguish for the unique Cycladic architecture: whitewashed sugar houses, colorful windows and doors, white churches with blue domes and traditional windmills. Mykonos Town and Naoussa in Paros are wonderful samples of Cycladic architecture, let apart the caldera villages of Santorini that distinguish for their amazing beauty and the breathtaking view. The capital of the islands are called Chora and most of these capitals were built on the slopes of hills in the Medieval times for security reasons, in order to have good view to the sea and be prepared against pirate attacks.

Dodecanese islands

The island complex of Dodecanese in south-eastern Aegean is the sunniest corner in Greece. The name Dodecanese actually means twelve islands in Greek, as this is the number of the largest islands of the complex. Twelve large islands and numerous smaller ones with crystal clear waters, sandy or pebbly beaches, important archaeological finds, imposing Byzantine and medieval monuments and unique traditional settlements are waiting to be discovered. The Dodecanese islands are located on the south eastern side of Greece, between Cyclades and the coasts of Turkey. Less popular than Cyclades and with a different style, these greek islands distinguish for their Medieval architecture and the peaceful beaches.

The Ionian islands are the most popular greek islands complex of Greece. They are traditionally called the Heptanese, "the Seven Islandsbut the group includes many smaller islands as well as the seven principal ones. Located on the western side of the country, historically and culturally these islands are strongly connected to Italy. The architecture of the capital towns, including Corfu Town, Zakynthos Town and Argostoli, resembles a lot to the Venetian style as these islands were occupied by the Venetians in the Medieval times. Apart from this architectural style, the other characteristics of Ionian Greece are the green nature and the wonderful beaches. Corfu, Zakynthos, Kefalonia and Lefkada are the most popular holiday islands. The Ionian islands are world famous for their exotic beaches that are frequently included among the best beaches in the world. Navagio in Zakynthos, Myrtos in Kefalonia, Agios Gordis in Corfu and Porto Katsiki in Lefkada are only few of these beaches that amaze visitors with their natural beauty and the fabulous waters.

Saronic islands

The Saronic islands, in Greece, are part of the Aegean Sea and they are located between the peninsula of Attica and the north eastern coasts of Peloponnese. These lovely Greek islands are frequently visited as weekend destinations from Athens and for short holidays. Due to their short ferry ride from the Greek capital, they are also perfect for day trips. Aegina, Poros, Hydra and Spetses have developed a lot in tourism over the last years, while Agistri is not that famous but remains a true gem to explore. The crystal water, the relaxing atmosphere and the long history are the most distinctive characteristics of Saronic Greece, which have a different character each. Poros is great for sailing, Hydra has amazing architecture, Spetses stands out for the elegant mansions and Aegina is ideal for family vacations. This Saronic islands travel guide will give you all the necessary information to organize your holiday.

Sporades islands

Legend has it that the gods created the Sporades Islands by tossing colored pebbles into the Aegean Sea. The myth is reflected in the name Sporades, which means "the scattered ones," and in the colors of their verdant green hills, sapphire blue waters and sandy beaches. These mountainous, densely-forested islands are located off the eastern coast of Greece in the Aegean Sea.

The group includes about two dozen islands, of which only Alonnisos, Skiathos, Skopelos, and Skyros are inhabited. Long the playgound of the rich and famous, these charming and historic islands are some of the most popular tourist destinations in all of Greece. Skyros, the largest island in the Sporades, is well known for its beautiful terrain, crystal blue waters, indigenous ponies and first-class tourism facilities.
